## Starch Co. To Make New Offer In Dispute

Meeting Set Wednesday In St. Louis; Company Preparing Proposal

A new proposal for settlement of issues involved in the prolonged Union Starch & Refining Co. strike will be submitted to union officials in a negotiation session scheduled for Wednesday, it was learned by the Press-Record today.

Negotiation committees for both the company and striking Oil, Chemical and Atomic Workers Union, Local 7483, met throughout last week, adjourning Friday afternoon with reports of "some progress" by both company and union spokesmen.

A company spokesman said a new proposal is being formulated by the company for presentation in Wednesday's meeting which will start at 9:30 a.m. in the U. S. Mediation Service offices in St. Louis.

Decision to draw a new proposal was made following Friday's meeting of the full negotiation committee of both sides which include T. R. Reed, Columbus, Ind., president of the Union Starch, E. D. Swisher, Denver, Colo., vice-president of negotiations for the international union, and H. J. McLean, Chicago, international union representative.

Negotiation sessions also were held last Tuesday, Wednesday and Thursday, but were attended only by the regular local negotiating committees. At that time, the problem of craft realignment which is being demanded by the company was reported still the deadlocking issue in the negotiations.

The strike at Union Starch began on July 4 after negotiations failed to reach agreement on wages, grievance procedure and other issues.

## Fate Of Highway Work Up To State

FA Route 151, Nameoki Widening, Underpass Among 1966 Projects

The fate of many major highway improvement projects in the Quad-City area—involving millions of dollars in cost—is now being determined by officials of the Illinois Division of Highways in preparation of the 1966 Highway Department budget and construction work schedule.

Announcement of the new work schedule and financing program is anticipated early in January and is certain to affect extensively the status not only of a number of top-ranking highway projects, but also the area's industrial and economic development that depend heavily upon effective transportation facilities.

Foremost among these improvements is Federal Aid Route 151, also known as the Great River Road, which has been completed as a major highway to a point just north of the A. O. Smith Corp. plant. Highway officials still give no indication as to whether additional highway through West Granite and along old Route 3 to Venice, is contemplated during 1966.

On the other hand, Arthur Kettnerhoff, district engineer in charge of right-of-way at the French Village office of the Illinois Highway Department, told the Press-Record that during 1966 efforts were devoted to acquisition of right-of-way for continuation of the highway from the present completed point southward to Niedringhaus avenue, a distance of 2.78 miles.

**Plan Condemnation**

Kettnerhoff said that of the right-of-way needed for this stretch of highway, about 50% has been obtained by negotiation, and that the other half will have to be acquired by condemnation. He said present plans call for filing condemnation proceedings within the next month.

The new River Front Road also is being counted upon heavily by the Tri-City Region. Port Authority has a multi-million dollar harbor development along the Chain of Rocks canal.

Since the state can acquire right-of-way under a so-called "quick-take" law within a matter of several months, it is likely further construction work on Federal Aid Route 151 can and will be scheduled next year. Even so, scheduling of the project does not necessarily mean that it will be completed.

The construction and right-of-way schedule for 1965 also called for acquisition of right-of-way for that section of Route 151 between Niedringhaus avenue and Broadway in Venice, but Kettnerhoff said nothing was accomplished along this line.

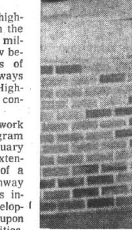

That particular stretch of highway is 2.06 miles long. Although the state has a right-of-way of an estimated cost of \$150,000 was planned during 1965 and included in the Highway Department schedule, Kettnerhoff said specifications for the appraisals were not completed during the year.

Neither did the Highway Department.

## 22 Persons Hurt In 49 Weekend Traffic Mishaps

Gift Parcels Searched In Second Bomb Scare

By Press-Record Staff Photographer

Even gaily wrapped Christmas gift packages for patients were opened Friday in a search for a bomb reportedly in Spruce Cottage at Alton State Hospital.

For the second time in a week, the bomb disposal squad from the Granite City Army Depot was called to the state hospital. The 120-man cottage had been vacated and the men housed elsewhere until 9 p.m.

An anonymous caller at 4:50 p.m. said a bomb was in the cottage and was to go off at 6 p.m. The bomb squad continued the search until 7:15 p.m. and nothing was found. On Dec. 3, a similar hoax forced 75 employees to vacate the administration building.

His father returned from the hospital early Sunday to attend services at the Venice Methodist Church, where he is pastor, and then returned to the hospital. The church is located at 225 Broadway, and police gave him a ride to the church.

The motorist, Robert E. Mosley, 42, of 1208 Logan street, Venice, said he was in the inside westbound lane. Another car was in the outside lane and had stopped, but Mosley did not realize it had halted due to a child being in the street. As Mosley passed the other auto, the boy moved into his path, he related.

At the time he was aware there was a pedestrian, he was too late to avoid him, realizing it had halted due to a child being in the street. As Mosley passed the other auto, the boy moved into his path, he related.

The auto was damaged about the front. Mosley was booked for reckless driving and was released by Jaycees, Jayvets and Senior Girl Scouts to call Granite Cityans and remind them of the special election.

**Three Youth Injured**

Three youths were injured when a car driven by Shari Polette, 17, of 2016 Oregon street struck a truck owned by the Weils Tri-City Tire Co., 488 Madison avenue, while it was parked in front of the firm at 10 p.m. Friday.

Taken to St. Elizabeth Hospital were the driver, who was admitted with contusions and abrasions to both lower legs, and Phillip Edward Worrell, 16, of 1610 Spruce street, treated for abrasions and lacerations to the forehead and right knee, and released.

Three other passengers were unhurt. The driver was charged with driving without a license and careless driving.

**Auto Hits Car, Signs Pole**

Three occupants of an auto were hurt at 3:25 a.m. Sunday at Broadway and Market street, Venice, when their southbound car skidded on rainy pavement into a parked auto, knocked down two signs and hit an Illinois Power Co. pole.

Mary Baquer, 35, of 620 Ashland avenue, Mitchell, was admitted to St. Elizabeth Hospital with a headache and pains in the right knee and thigh. Also hurt were Ilumunde Pastorio, 1919 Third street, Venice, and the driver, Victor A. Rodriguez, 24, Route Two, St. Peter's, Mo.

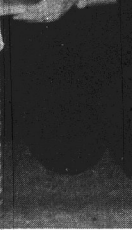

The parked auto, owned by Chester Freeman, 918 Webster street, Madison, was damaged about the front end. The Rodriguez car, totally demolished, damaged a Venice Lions club sign and a city population marker as well as the utility pole.

## County Need for More Space Critical; Building Urged

Should Double Space

By Press-Record Staff Photographer

Should Double Space

Total space needed for the building and zoning office is approximately 1500 square feet, plus a conference room to seat 15 persons.

Report said this is about 2 1/2 times the space now available. The building and zoning office should have double the space now has, and the present space in the maps and plats department now is 445 square feet, approximately 415 square feet less than the space needed, it was reported.

Schoeck's proposal calls for tearing down the present building on Main street in Edwardsville and building a multiple story building with a two-level parking garage. The structure also would contain a jail, detention home and court facilities.

In the new building, the space used for the courts in the present courthouse could be converted to office space, Schoeck said. He then will be held with county officials between February and June leading up to completion of the study, he said.

He outlined progress on various phases of the study which thus far has revealed that space provided in the present courthouse for the probation department, the mapping and platting offices and lots.

151, considered one of the most important transportation links in this area for the purposes of economic and industrial development, was limited to acquisition of one half of the right-of-way needed for one of two sections of work that had been scheduled.

Also depending upon the final draft of the Highway Division's work plans is construction of the Broadway underpass at Venice, a project that already has been hanging fire for years and one sorely needed to eliminate the bottleneck in traffic caused by railroad lines at Main street in Venice where traffic sometimes is blocked for long periods.

The State of Illinois, through the Illinois Commerce Commission, has been pushing the city of Venice for several years to come up with its share of the money so that the underpass can be built. Venice officials announced a month ago that the money is now available, but Dr. John E. Lee, mayor of Venice, has disclosed that state officials have given him a "pessimistic outlook" as to whether or not the underpass job can be included in the 1966 highway work schedule.

The underpass would tie in with Route 151 which eventually will be built along the river to Venice, and later continue along the approximate route of old Route 3 to East St. Louis and southward.

**Kerr Street Closed**  
Construction of the underpass will call for relocation of railroad lines and the closing or relocation of several Venice streets. One of these crossings at Kerr street already has been closed by order of the Commerce Commission and Dr. Lee has indicated he will petition for its reopening if it appears the highway department attempts to delay the underpass construction.

**River Bridge Delayed**  
The Quad-City area already is confronted with one serious delay in the step-by-step schedule of highway improvement through recent announcement that work on the new Chain of Rocks bridge across the Mississippi River has been shut down.

The action, however, involves no fault of the Illinois Highway Department which completed its phase of the river bridge contract and also has virtually completed all work on the new bridge across the Chain of Rocks Canal. The canal bridge, however, cannot be placed in use until the new river bridge is completed for the children, the first in the extend Interstate 270 into Missouri.

Work on the river bridge was originally had fixed Dec. 1 as the opening date, later extending this date until June. No revision of Kemp, 45, of 821 Franklin street, to West Madison. Treated at St. Elizabeth Hospital for a neck injury, she was trans-

## Public Aid Stamp Plan Starts in Area Thursday

The new system of food distribution to clients of the Illinois Public Aid Commission, under which recipients will receive food stamps amounting to 80% of their allotments will take effect Thursday in the Quad-Cities and other parts of Madison county.

The program will be administered by the Madison County Department of Public Aid at Edwardsville.

Under the plan for public aid recipients and other low income families not on public aid, general assistance (direct relief) clients will receive their new stamp checks and disbursement orders from the township, while pensioners, aid to dependent children clients and others will receive theirs from the public aid office.

The stamps may be purchased at two banks in the Quad-Cities—the First Granite City National Bank and the First National Bank in Madison.

The plan is being instituted to insure more widespread purchase of food necessities and will increase food allotments of all public aid clients, including general assistance, pension, blind, disability and ADC.

**Receive Check**  
Public aid clients will be certified to the state by the township or the county public aid office. These clients, thereafter, will receive a check made out to a bank or other agency in the amount of 80% of the total customary allotment.

The check is then taken to the agency which, in turn, gives the client food stamps in 50 cent and \$2 denominations, in the total amount of the check. Food stamps can be used to purchase any food items, except those listed as imports, at participating retail grocery stores. Liquor, tobacco, pet foods, paper goods and household supplies cannot be bought with the stamps.

Harold O. Swank, director of the state public aid department, said participants will receive bonus stamps in addition to stamps purchased. These will increase the purchasing power of their food dollar by more than 30%.

**Low Income Families**  
Persons with low incomes who are not on public aid may participate in the program if they are determined to be eligible accord-

ing to standards established by the Department of Public Aid.

The income eligible scale for individuals or families not on public aid ranges from a net income of \$138 per month for one person to \$490 for a family of 10. Also, liquid assets as cash, bank accounts, stocks or bonds cannot exceed \$400 for a single person nor \$600 for a family group. However, individuals or families may own assets as their own homes and automobiles.

Each month the Department of Public Aid will send participants in the program an authorization card to purchase food stamps and an identification card. Both cards must be presented to purchase food stamps prior to the expiration dates shown on each card.

The authorization card shows the amount the card holder must spend to purchase food stamps. This card will be retained by the food stamp sales center. The identification card will be returned to its holder.

**Proxy Designated**  
If a certified head of a household is unable to buy the stamps, a proxy may be designated to act for him. There will be no stamp purchases by mail in Madison county.

An ADC family composed of an adult and three children, four, seven and 13 years of age, has a budgeted allowance of \$76.50 per month for food, which expands to \$100.50 for a participant in the food stamp program.

This family will be required to purchase \$61 worth of food stamps, which is 80% of the budgeted food allowance. They will receive, in addition to the \$61 worth of food stamps purchased, \$24 worth of bonus stamps. The food stamps with a total value of \$85 plus cash remaining from the food allowance, \$15.50, totals \$100.50.

### Toss a Ball Through a Hoop? 'Never,' They Said

By MIKE GREMAUD  
Press-Record Sports Editor

Build a transcendental railroad? "Never," they said. You might brothers fly in that contraption? "Never," they said. Put that round ball through that hoop? Have teams do it? "Never," they said.

In that cold Springfield, Mass., winter of 1894-95, an instructor in the YMCA training college (now Springfield College) affixed peach baskets overhead on the walls of the gymnasium.

With the help of a soccer ball, he organized teams to play his new game in which the purpose was to toss the ball into one basket and prevent, as far as possible, the opponents from tossing the ball into the other basket.

Little did Dr. James Naismith realize, but his new novelty was to occupy the attentions of sporting enthusiasts during the winter months as much as 74 years later.

Naismith deliberately invented the game of basketball in order to provide indoor exercise and competition for the students between the closing of football season and the opening of baseball season.

Fundamentally the Same  
Fundamentally the same is the game, although there have been improvements in equipment and changes in rules.

Because Naismith had 18 available players when he invented the game, the first rule read: "There shall be nine players on each side." Later the number of players became optional, depending on the size of the available court, and eventually the five-player standard was adopted, when the game spread over the country.

The "Dough Boys" introduced the game in Europe during world war I, and its popularity spread among foreign nations.

Naismith probably would have trouble recognizing the game as played today.

### 16-Year-Old Wins Driver Award in Slot Car Action

Sixteen-year-old Joey Howard placed second in the Midwest Slot Car Association Enduro race Sunday and won the association's trophy as top driver of the year in doing so.

Earl Marks won the two-hour marathon race, 12 laps ahead of Howard. Marks completed over 600 laps, and Howard also completed more than 600 laps.

The race, held at the Tri-City Miniature Speedway in Granite City, was the association's finale of the current racing season.

Howard, driving number seven Cheater, held a second place throughout the race. Finishing third was Terry Tessary with a Lola T-70, and fourth was Carl Waller in his Shelby-American Cobra. Marks drove a Mant-A-Ray car.

Pre-race favorite Dick Hardesty of Wood River was forced out of competition during the first elimination heat race with a broken pinion gear on his Cheater.

Marks won the first heat race with Howard placing second. Marks completed the 15-minute race with 191 laps and Howard had 185 laps. Tessary and Waller tied for first in the second heat race with 169 laps each.

The heat races were run as an elimination to decide which of the top 10 drivers would compete in the endurance race.

Top Powder Puff (lady) driver of the year, Sandy Thomas, was presented a trophy for her achievement.

### Maroons, Flyers Win Close Contests Here

The Granite City Warriors lost their home Southwestern Conference basketball game to the Maroons, and a little prestige as well.

Belleville downed Granite City 58-51 Friday night and the East St. Louis Flyers dumped the Warriors 62-57 Saturday night.

The Warriors were in the running in both contests, but couldn't hold the pace and were run ragged in the third and fourth quarters of both games.

Despite superior height of the Maroons, Granite City gave in to a 31-19 halftime lead Friday night. Belleville came back and outscored Granite City in the last two periods for the win.

With a little more than three minutes left in the game, Granite City rallied behind the shooting of Larry Ripka and closed the gap to 50-45.

Moments later, Belleville's Jim Martin scored two quick baskets and Bill Snellings added the final Maroon basket for a seven-point victory margin.

Granite City was beaten by its own weapon—the zone press.

The Flyers, with no man taller than 6'2", also used a zone press and did well with it.

The one bright statistic in the East St. Louis game shows Granite City outbounding the Flyers, 23-30. The Warriors were 19 for 21 at the charity line, and committed 21 personal fouls.

Friday's game gave Belleville its first win and a 1-2 mark. On Saturday, the Maroons upset Collinsville, 56-44.

East St. Louis now has a 3-2 record after the Granite City game. The Warriors are currently 1-4.

### GC Defeats 7 Teams in Mo. Mat Tourney

Granite City grapplers edged Hazelwood high school and won the Ritenour Invitational wrestling tourney over the weekend.

The tourney was held at Ritenour high school Friday and Saturday and featured eight schools in the competition.

The Warriors chalked up 90 points, while Hazelwood, a strong contender for the Missouri state title this year, scored 87 points.

Riverview Gardens, last year's Missouri state champion, scored 57, Ritenour had 47, Normandy 43, Pattonville 23, Country Day 21 and Maplewood 0.

Champion wrestlers for the Warriors were Bill Fuchs (93); Mike Andria (138); and Jim Valicoff (145).

Ernie Mills (127), Brian Lawm (133) and Dewey Bell (Hwt.) were runners-up, and Mike Reynolds (112) and Lester Robertson (120) were third-place winners.

Granite City, only Illinois school in the meet, won the same meet last year.

### Venice Red Devils Win MCM Tourney; Down Bunker Hill Minutemen, 66-62

Venice's Red Devils took the lead late in the second quarter of play during Saturday night's MCM Tourney championship game and retained it to win the conference game tournament title 66-62.

The game ended a full week's schedule of basketball for the eight-team conference at Bunker Hill.

The Red Devils took a 28-23 halftime lead and opened it up to as much as 12 points during the last half of play, in an effort to control the ball during the closing moments of the game.

Venice eased its defense and the Minutemen scored two quick baskets to close the lead down to only four points.

Both teams used a full-court press, but the Red Devils had more luck in getting the ball up the floor. Triple-teamed Rich

Essington controlled the tempo of play and Perry Dillon led rebounding.

Dillon took high point honors for the evening with 20 points, and Essington had 18. Essington hit only three baskets but was 12 for 17 at the free throw line.

High scorer for the Minutemen was Terry Buhs with 16 points.

The game leaves Venice with an unblemished mark of 7-0 for the season.

Bunker Hill advanced to the finals with a 66-37 win over Livingston Thursday night.

Breesee won the consolation title Friday night with a 66-32 verdict over St. Paul after having edged Weslin 61-59 Thursday. The third-place championship game Friday went to Warden, 54-38 over Livingston.

The Chiefs were trailing by one point at halftime, but came back behind the shooting of Roger Belshe for the win. Belshe was high scorer in the game with 27 points.

The win leaves Prather with a 3-3 mark.

The eighth grade team of Prather lost to Collinsville North 36-17 in the preliminary game.

Terry Cross was high man for the Chiefs with eight points. The eighth graders sport a 2-3 record.

Jim Morrison

Line OK, Backs  
To Lack Size,  
Speed in 1966

(This is the second of two articles, one reviewing the 1965 grid season at Granite City high school and one previewing the 1966 season in store for the 1966 season, by Coach Jim Morrison as told to Mike Gremaud.)

Next year, as you may know, will be the 20th anniversary of Granite City's winning a Southwestern Conference football title. The last league crown was won back in 1946.

We'll have 12 letterman back, including eight starters — three offensive and five defensive.

Our line will be more experienced than it was last year.

Problem in Backfield

Our problem will lie in the backfield. We do not have a proven quarterback, and we lack size in our running backs.

Of course, there's that perennial problem which we call "speed." I can see now that we need more size and speed in the backfield. If we want to stay alive in the conference race.

Our returning lettermen on offense are Terry Moore, end, Ron Turner, halfback, and Jim Gann, tackle. On defense, we'll have Moore at end, Jim Hanzel at end, Bob Prince at guard, Terry Yates as a linebacker and Dan Partney as a tackle.

Our schedule will be one of the most demanding in the school's history. We start with Cahokia for the opener, pick up solved.

All Foes Tough

In the conference, Wood River Alton and Collinsville will be improved ball clubs over this year. They'll all be tough. Cahokia, well, they waited their way through their conference schedule, and we will have problems with them.

As for ourselves, I can definitely see now where there will be some changes in our system of football to gear it to our personnel. What those changes are, I can't say at this moment.

We'll have a bunch of fine kids who, with a little work, could build themselves into a good football team. Yates and Moore are going to be fine leaders as co-captains, and I think we'll do all right.

After all, it's not the size of the dog in the fight, it's the size of the fight in the dog. And with the spirit and will, I can see another good season in store for us in 1966. That is, if some of our backfield problems are solved.

## 'Toss A Ball'

It is today, what with all the standard weapons such as: the press, 1-31 defense, 7' 0" college freshmen and the apparent UCLA basketball dynasty being built.

Rather, Naismith would probably prefer to think of the game as merely an activity to free one's thoughts from the cold winter nights, and keep in shape for baseball season.

"Never," they said?

Local athletes are putting a round ball through a hoop with such regularity this season that they are filling Quad-city high school gymnasiums with enthusiastic fans and have outscored roundball teams from opposing schools by a wide margin.

And preparation for baseball — well, the players and fans are quite content to defer this until spring.

## Jury Dismissed After Witness Becomes Ill

A jury trial in a \$150,000 civil suit being heard by Associate Judge Fred P. Schuman in the Granite City division of circuit court was continued until January 1966 as one of the principals in the case became ill in court Thursday and was hospitalized.

He is Norman Walters, superintendent for Hoeft Brothers Construction Co. of Belleville on the highway project near Route 3 and Highway 66.

The firm is defendant in a suit filed by Merl Dennis Walker of the Alton area, who alleges permanent injuries in an auto accident at the construction site.

One witness was heard. The jury was dismissed, and the case will be transferred to circuit court in Edwardsville before Judge Schuman.

Prior to the attack, arguments were heard to determine if the plaintiff could appear in court on a stretcher. A lounge chair was arranged for him on a claim that sitting straight in a regular chair caused pains.

# FREDMAN BROS. AFTER CHRISTMAS

## A Sale With a Reason... Not Just an Excuse! WHAT IS A BARGAIN?

You, the homemaker, are constantly besieged with advertisements of merchandise called bargains at prices reduced from much higher "list prices." Many of the values are authentic; some, possibly, are not.

However, no one can offer a legitimate bargain unless they have a legitimate reason for doing so. Fredman Bros. has such a reason for offering values far beyond the usual: The last six months have been among the busiest in our history. Business has been good; it has been so good that we have reached our profit quota for the year. Most of anything else we make now would be paid out in taxes. Therefore we've slashed prices throughout the store with only 5 things in mind:

1. Show our appreciation to our customers and friends in the Quad-City area by offering them an opportunity to buy all their Christmas gifts at "After Christmas" prices.

2. Reduce the overstock now instead of waiting 'til after Christmas.

3. Open up 500 new accounts before the end of the year. Therefore all merchandise will be marked down as much as 80% to 90% just as if it were after Christmas but you can still have it delivered in time to give as a Christmas gift.

### Many Groups Have Endorsed GC Rink, Recreation Center

Despite the brevity of the campaign for passage of Saturday's Granite City ice skating rink and recreation center election, more than a dozen organizations have endorsed the proposal, some of them unanimously.

Climaxing over a year of planning, the design of the year-round Wilson Park facility was unveiled to the public Nov. 2.

This Saturday, six and a half weeks later, voters will decide. If their vote is favorable, the speed will enable the rink to be completed in time for next winter's skating season; about a year will be required for preparation of blueprints, bidding and construction.

The plan has captured the interest and support of people of all walks of life.

Labor, Business, Youth Groups  
One of the first organizations to go on record was the Tri-City Trades and Labor Council, AFL-CIO. One of the most recent was the Tri-Cities Chamber of Commerce board.

The Knights of Columbus council has urged passage of the election. So has the city council of Granite City.

Parent-Teacher Association  
President and board members endorsing the project, and many youth groups are asking their parents to be sure to go to the polls to cast a "Yes" vote.

Granite City Jaycees, Rotarians, Noonday Optimists, Twilight Optimists and Kiwanis have voiced their sentiments—all urging active public support of the bond election.

The Ladies' Coteries has advised park officials of its support. Boosters of the Fighting Warriors, an organization which boasts the high school athletic program, is strongly for the ice rink and recreation center. Boy Scout and Girl Scout leaders have been active.

Other groups will be heard from. Some will not be able to take a stand, due to the shortness of the campaign period. Only the ballots cast this Saturday, of course, will count.

### Management Courses Registration Thursday

Registration will be held Thursday from 6:30 to 8 p.m. in the Adult Education office of the Granite City high school for five industrial management courses to be offered by Northwestern Illinois University-Southwestern Campus in Granite City this winter.

The courses will be offered as part of a certificate program for present and future foremen and supervisors in industry.

Each of the five courses will have class meetings one night a week in the high school, beginning the week of Jan. 3.

The courses and class meeting nights include:

- Creative Thinking, Monday; Current Labor Law, Tuesday; Industrial Report Writing, Wednesday; Material Handling and Practical Psychology for Supervisors, Thursday.

The high school and the Manufacturers' Association of the Tri-Cities are cooperating with SIU-SW in the program. Additional information is available through the Technical and Adult Education office at the new campus.

## SOCIETY

### Miss Stratton, Donald Krajnovich Exchange Vows

Miss Vada Mae Stratton, daughter of Mr. and Mrs. Glen Lowe, 1232 Edwardsville road, and Donald Louis Krajnovich, Madison, were married Saturday in a one o'clock ceremony performed by Magistrate Merlin G. Hiscott at his office in Granite City.

The bridegroom is a son of Mrs. Mary Krajnovich, 1123 Grand avenue, Madison, and Steven Krajnovich, 1727 Grand avenue.

The dress, designed with a rounded neckline, had a semi-bouffant skirt, pleated in the back, with a self-fabric bow attached at the waistline. She wore a matching short jacket, elbow-length white gloves and a white orchid corsage.

Her headpiece was fashioned of pink flowers and veiling. Mrs. Walters chose a velvet frock of rust and gold made with a scoop neckline and semi-full short skirt. A matching bow and short veil were worn on her hair and a corsage of white carnations completed her accessories.

Immediately following the ceremony, a reception was given for the immediate family at the home of Mr. and Mrs. Theodore Scrum, 3020 Warren avenue, an uncle and aunt of the groom.

The bride attended Granite City high school and is employed at the Madison bowling lanes. ## Rail Employee Hurt in Fall Sues for \$145,000

Robert W. Hayes, a brakeman-switchman for the Illinois Terminal Railroad, has filed suit for \$145,000 plus costs against the railroad in Madison county circuit court.

The complaint alleges that he fell from an engine on a trestle to the ground, suffering severe and permanent injuries. He claims the railroad was negligent in failing to provide a reasonably safe place in which to work, as the trestle had either no walkways or insufficient walkways on either side and there were no guard rails.

# Marines in Vietnam Get Encouragement From Letters Sent by College Students

Extreme gratitude was expressed by a Marine lieutenant in the thick of battle in Vietnam to a letter he received from a college student from Ohio giving him encouragement in his dangerous assignment.

First Lt. Henry Barnett, who has been in Vietnam with the Third Marine Division since June, sent the letter to his wife, Patricia, a fifth grade teacher at Niedringhaus school, who is living with her parents, Mr. and Mrs. James Warren, 3255 Edgewood drive.

Lt. Barnett said 140 letters were received from the college students, giving the Marines support in the conflict. He noted that the Marines are aware of the anti-war demonstrations by students, and the letters were boosts to morale of the fighting men.

Homey, Pleasant Letter  
Excerpts from the homey-type letter follow:

"I sit in a hardy know where to begin writing to someone I know absolutely nothing about—even his name, but I'll give it a try and if I'm successful, maybe you'll send me your name."

"First of all maybe we'd better get acquainted. My name is Sue. I'm 20 years old and a junior at Ohio State University, majoring in home economics."

"Now don't you dare chuckle at my major and wonder why in the world anyone would go to college just to learn to cook and sew. It's really a challenge, and as a matter of fact, I haven't had one single course in either."

## Dormitory Dweller

"I'm living in a dormitory with 400 other girls until next year when I'll be old enough to live in an apartment."

"You know, I'm having a riot trying to figure you out. I have no idea in the world who you are, what you look like or what interests you have, so I'm trying to guess."

"I think you might be interested in football and cars. I'm not so well informed on, but football I love. Ohio State is ranked third in the Big Ten right now but will most likely end up second behind Michigan State. We did win our homecoming game against Minnesota last week, 11-10. It was really exciting. I'm going up to Chicago this weekend to see the West Point game on Saturday. I'm really looking forward to it."

"Hey, now to get down to business. I have a few comments to make. I don't know for sure just what you've seen or heard recently concerning a protest or lack of support for you guys, but however serious it may seem, do try to disregard it, won't you?"

Trouble Makers Insignificant  
"These trouble makers are so insignificant and are really so greatly outnumbered that it shouldn't concern you much, really."

"I've just come from a lecture in support of our policy and the crowd in attendance was really heartwarming. Don't you think for one single minute that we're and as a matter of fact, I haven't heard."

"We've made plans now for a

blood drive on Nov. 10-11 to send to Vietnam, and these letters are going to be regular now. We can't do much here to show you just how much you are appreciated but do realize it, won't you?"

"The very largest percentage of 'we folks back home' are behind you, standing proud and tall. Through this whole Vietnam affair my patriotism has become progressively stronger. I can go proudly say with all the certainty in the world that I am an American citizen and that it is people

like you and your friends that enable me to keep saying that in answer to any contrary remarks I might hear.

"Do take care now, and be assured that your people and your God are for you. That's an unprovable but certain combination. You are and shall be a part of my prayers. Love, Sue."

## Loses Bid To Recover \$900 Gambling Money

Circuit Judge I. H. Streep is  
expected to sign a court order  
this week instructing Alton  
Police Chief John Heafner to turn  
over to the county treasurer's of-  
fice the sum of \$900 which was  
confiscated from Wardell Young,  
West Madison tavern operator, in  
a raid on an Alton dice game a  
year ago.

The money had been held in  
escrow by Sheriff Barney Fraun-  
dorf until last Friday when the  
sheriff gave the money to Heafner  
under an order signed by  
Judge Streep late in November.  
That order was issued in  
denying a plea by Young in a  
replevin suit for return of the  
money to him.

According to Heafner, the \$900  
was taken from a dice table in  
front of Young in the raid in  
December 1964 and turned over  
to the sheriff's office. Young is  
operator of Young's Lounge at  
Eighth and Jackson streets in  
West Madison which was closed  
two weeks ago as the result of  
gambling activities.  
Young, who was arrested on a  
charge of participating in a  
dice game after the raid a year  
ago, pleaded guilty to the charge  
and was fined \$30, according to  
Heafner. Young later filed suit  
against Heafner to recover the  
money.

Judge Streep signed the order  
instructing Sheriff Fraun-  
dorf to return the money to  
Heafner on Nov. 22. The order  
expected to be signed this week  
will instruct Heafner to turn the  
funds over to the county treas-  
urer and the money will go into  
the regular county fund.

Fall, Thrown Chemical  
Sends 2 to Hospital

A Madison man who apparently fell at a Cambridge avenue service station and a 13-year-old Lovejoy youth who became violently ill after inhaling a chemical compound were admitted late Saturday at St. Elizabeth Hospital.

After he sustained cuts to the back of his head and injured his left forearm in a fall at the Derby service station, 200 Highway 203, Charles Holland, 22 of 1914 Edwardsville road, Madison, was admitted for treatment and observation.

Also hospitalized was Arnold Thomas, 13, son of Mrs. Erma Jean Betts, Brooklyn, who complained of chest pains and nausea shortly after he inhaled a quantity of fire extinguisher chemicals thrown into his face by another youth.

The pair was attending a dance in the Lovejoy fire department hall when the incident occurred. According to a department spokesman, the two youths were just "playing around" and apparently unaware of the hazardous nature of the chemical.

## Briggs Suggests New Courthouse for County

Harry Briggs, Nameoki township supervisor, has recommended replacement of the Madison county courthouse, which could accommodate a new county jail.

He said a new state law permits a five-cent tax for counties to reconstruct or remodel county buildings. He said it could be financed through issuance of general obligation bonds.

Briggs suggested that the courthouse committee consider the proposal to eliminate expense of repairs and remodeling the current structure. He also noted efforts by the county sheriff to obtain a new county jail.

The supervisor also suggested that the county employ additional building inspectors as inspections by the single county inspector are extremely slow and that a building boom is under way in some unincorporated areas, especially in Nameoki township.

He noted that many residents are conducting small remodeling and repair projects without obtaining building permits, and that the county is losing fees. He is expected to discuss the matter at the meeting of the county board of supervisors on Dec. 22.

## Wednesday Deadline for Out-of-Town Yule Mail

Wednesday is D-Day for out-of-town Christmas gifts and greetings to be mailed to be 100% sure that the delivery will be on time.

The warning was given today by local postmasters, who noted that mail volume is breaking all records.

Postmaster W. T. Overbeck said today his office already has sold over 150,000 Christmas stamps.

Each of the special stamps depicting the Angel Gabriel offer first class mail privileges for Christmas cards, the local postmasters pointed out in a directive.

First class postage provides forwarding service if the recipient has moved or return of the cards if they are undeliverable, provided a return address is on the envelope.

A five-cent stamp also means handling and delivery will be given priority.

Local postmasters also are urging Quad-Cityans to include the local Zip Code in the return address. They also suggest that Zip Codes on all incoming mail be checked and added to mailing lists.

## Courtesy Tickets For Meter Parking

Courtesy tickets, instead of the more costly ones, will be issued for parking meter violations beginning today in the downtown shopping area. The practice will continue through Christmas Eve.

Motorists are informed on the ticket that the Associated Retailers & Civic Association and the City of Granite City have deposited a nickel for one hour of free parking. The retailers provide a supply of nickels to the meter patrolman.

The Associated Retailers also issued a reminder that youngsters still may call Santa Claus by telephone by dialing TR 7-8711.

Featured will be three smaller instrumental groups—a combined trombone and percussion ensemble playing Coliel's "Trombone," a flute ensemble doing "The Wedding of the Painted Doll" and a clarinet trio presenting "Dance Des Mirlitons" from Tschalkovsky's "Nutcracker Suite."

Members of the mixed ensemble are trombonists Nelson Hedges, Roger Belshe, Patrick Fuller, James Blackwell, Richard Myers, Kenny Shipp and percussionists Wally Jung, Patrick Spies, Diane Bradford, Sandra Candell, Nancy Yant and Tom Alfaro.

The flute ensemble is composed of Brenda Johnson, Sandra Joyce, Kay Sheffer, Dorothy Squires, Kathy Soehning, Janet Stuppkoite, Kim Scheffert and Patricia McKay. The clarinet trio is made up of Linda Cox, Janice Brown and Kathy Szucs.

## Road Survey Report Studied by County

A preliminary report of a classification study on roads and streets in Madison county by Wilbur Smith & Associates, engineering consultants, has been received by Harry Kluge, county highway commissioner.

Kluge said he was dissatisfied with the report and is suggesting changes.

The survey, being conducted for the state on all state roads, classifies rural service roads, collector roads and interstate highways.

The preliminary maps show nothing which does not already exist or is in the process of planning or construction in the Quad-Cities area, including the riverfront road.

Kluge noted that the survey is only in its first stage, that he will be in contact with the consulting engineers in other phases of the survey, and that consideration of cost estimates to update roads or correct deficiencies may begin next spring.

## Arlington Heights Developers Sued Access Rd. Rights

A suit for \$10,000 plus costs has been filed against developers of the Arlington Heights subdivision in the Madison county circuit court alleging that property owners have been deprived of their rights.

The suit was filed for Vinis Zaczyn, trustee in the estate of the late Bertha DePriest, who died a year ago, on behalf of herself, Leonard DePriest, Frank DePriest, Valma Hans and Ernie DePriest as the children and surviving heirs against Mike and Winifred Sasyk and Kelly and Shirley Dutko.

The suit alleges a "malicious attempt" by the defendants to deprive heirs of the DePriest property of "rightful and peaceful possession and ownership" of their property. The complaint claims actual damages of about \$1500 and seeks the rest as punitive damages.

Say Access Road Blocked

It also seeks to enjoin the defendants from continuing to block and destroy an access road to the DePriest property and an order to restore the road.

According to the complaint, an access road leading to a public road existed for 30 years, but by building new homes the defendants obstructed and blocked the road, isolating the property and making it impossible to rent a house on the grounds.

The complaint also alleges that the defendants had promised to compensate for the loss of the rental, but have failed and refused to do so.

Threats Alleged

As a basis for punitive action, the complaint states that the defendants had attempted to purchase the DePriest property, which adjoins the subdivision, and allegedly used threats in attempting to force Mrs. DePriest and the estate to sell the real estate.

The plaintiffs also claim that the subdivision developers dredged a water hole on their property and dumped sand, silt and other materials on the DePriest property, destroyed a dike upon which the access road was located; and illegally trespassed.

The estate is asking the court to issue an order to restore the access road.

## One-Room School Survives In Franklin County, Ill.

JOHN W. ALLEN  
Southern Illinois University  
Being the first or last, oldest or only, of a kind often is a distinction. A one-room school taught by John Seely was begun in the New Design settlement of Monroe County, Illinois, in 1837. It was the first English speaking school in Illinois, some say in all of the Northwest Territory.

The site where that first log school stood and where some of the corner blocks and chimney stones remain is pointed out by those acquainted with the locality. This New Design school continued to function as a one-room school until 1858, a span of 175 years. It then became part of a consolidated school district.

The last of a series of buildings that had housed the school was sold at public auction. The first school, later known as Portland School, was a pattern for thousands of similar ones over the state of Illinois. Some older persons, particularly those acquainted with the more rural areas, will recall a time when the face of Illinois was sprinkled with these schools at two to three mile intervals. Now, according to news reports, only three remain.

One of the three surviving is Flatt School, about three miles west on County Highway 19, that leaves Illinois Highway 37 at the north side of Benton in Franklin county. This survivor is a durable appearing building, really large enough to accommodate a two-room school for which it apparently was planned. With partition omitted and presently used as a one-room school it is spacious, well lighted and fully modern, even having electrical heat and acoustical tile ceiling. It is indeed a far cry from the typical 20 by 32 foot box-like house with a half dozen narrow windows that the older of us knew, heated by a wood burning box stove that was stoked from long racks of firewood carefully corded nearby.

Flatt School has a garage where the teacher may keep a conveyance to carry the children to and from school. Our teacher tied his horse, blanketed by one more kindly hearted, to a tree in

the lea of the school house. Some other stabled horses in Uncle John K's barn that stood near the school. In later years, when coal replaced firewood, a shed to shelter a horse was built, beside the coalhouse.

The library of our long ago school was meager. It had a dog-eared atlas of ancient vintage and a globe considerably the worse for wear. There was the usual "Webster's Unabridged Dictionary" with an ageless look. There always would be a reading chart, sometimes the personal property of the teacher. Many an older will gratefully recall one of those "I see a dog. I see a boy. I see a boy and a dog" charts that was his key to a new world.

That long ago school sometimes had a few wall maps and some nondescript books of the "subscripted" variety. One of the books with covers missing is remembered with interest, particularly the section telling of the Great Wall of China and showing a picture. Ordinarily the few books at Hardscrabble were dull appearing ones.

Flatt School had a well selected collection of attractive books, so attractive in fact that even an oldtimer would like to read enough from them to know just what they are about. Books rarely are different. Among the books found at Flatt there was one lone survivor of long past days. This was Calvin's Orthography, that in this writer's opinion should be included in any list of immortal school texts, along with Ray's Arithmetic, the McGuffey Readers, Blue Back Spellers and Harvey's Grammar.

Several features of the old one-room school are vanished. The school desks are fitted to the desks of the typical small one with feet dangling from a seat far too high. Neither were there these bent double by reaching down to a desk top liberally carved with initials and strange designs.

Flatt had not a single left bound folding slate nor a slate pencil, not even a wooden backed felt blackboard eraser. The stained wooden water bucket and its tin cup or dipper that might be a gourd are gone. Instead, there was an automatic drinking fountain with a step up for smaller pupils. Change was all about.

Not All Is Changed

With all its changes, however, this one-room school retains its basic features. There is one teacher who teaches all subjects and grades and does it surprisingly well. Each pupil has opportunity to enrich and accelerate his pace. Lower grade pupils with a bit of spare time can listen and learn. An upper grade pupil

Vicki Moreland and Marilyn Gibson received year pins. A box for the Festival of Giving was filled and Christmas presents were started.

can likewise listen and review. Each comes to realize that he is one of a social group that includes a range of ages and that school is not a collection of water tight compartments.

At intermission time they "choose up" and play at games together and in a democratic way. They play by rules, basically those of the rule book sensibly adapted to the "situation and the terrain," size, age and strength of those playing. There is a spontaneity so often absent in organized play.

Present teacher of this lone southern Illinois one-room school is Eugene E. Upchurch, a college graduate, who began teaching in a rural school, went for a time to teach a grade in a city system and voluntarily returned to his first love. It is easy for one who knew the country school to observe the skill with which Mr. Upchurch goes about his work and to sense the degree of pleasure the pupils experience.

The visit to Flatt School aroused a nostalgia. A visit a few days later in company with two schoolmates to the abandoned building of the school we had attended together, increased that nostalgia. Then there was the fact that two of us had taught there a total of nine years.

This is not written to deplore the passing of the one-room country school, that passing was inevitable. It is written, however, with a deep appreciation of the great task that such schools accomplished.

## Fire Chiefs Give Tips on Preventing Yule Tree Fires

Fire chiefs of the Quad-Cities made of glass, metal or fire are giving their endorsement of a Christmas tree fire safety program being carried out across the nation by the National Board of Fire Underwriters.

The national agency pointed out that Yule trees are going up in 50 million homes and if properly cared for can be a joy. But a Christmas tree that is allowed to dry out becomes a fire hazard.

Suggestions for the proper care of a Christmas tree are: When you buy a tree this year, take your time. Feel the needles to be sure the tree is a fresh one. Brush the needles with your hand, and if some of them drop off, choose another tree.

When you have taken your tree home, if possible keep it out of doors until you are ready to place it in its stand and decorate it. If you have no place to keep it, heated garage or some other cool place. And, immediately, stand when nobody is home.

Turn off Christmas tree lights out of doors, keep it in a non-heated garage or some other cool place. And, immediately, stand when nobody is home. Your Christmas tree should be freshly cut tree will "drink" water and help keep itself fresh and green.

And don't bring the Christmas tree inside, until just before Christmas.

You can keep your Christmas tree fresh longer by placing it in the coolest part of the room. Select a location which is away from radiators, hot air ducts, heaters, and fireplaces.

When you buy a stand for the tree, select one which has a water container in which the trunk can rest. The tree will continue to "drink" water indoors, and more than you probably imagine. Check the metal container every day and refill it regularly.

Always use flameproof decorations when trimming the tree. Preferably, you should use those

**St. . to Provide for Self, Wife and Baby**  
William Tomshack, 18, of 931 Niedringhaus avenue, was charged with burglary Thursday by Granite City police after he responded to a request to appear at the police station.

He is charged with stealing two purses from a dining room table at the home of Christine and Martha Jackson, 2901 Edna street. One contained \$10 and a check for \$225, which he cashed, and the other contained \$2.

Tomshack, who is unemployed, told police that after cashing the check, he went shopping in the Granite City business district and purchased clothing for himself, maternity clothes for his wife and a high chair for his baby. Police confiscated \$64 he had left as evidence.

Tomshack waived preliminary hearing, was bound over to grand jury and held on \$500 cash bail. He currently is on a year's probation for theft of under \$100 stemming from a burglary last Aug. 28 at the home of Carol Hoffman, 1729 Sycamore street.

**State Says Seat Belts Are 'Good' Yule Gifts**  
Gift-giving Santas with gift giving problems are advised to give seat belts for Christmas presents.

William H. Morris, state police superintendent, made a plea to give seat belts for two reasons: first, safety and comfort; secondly, compliance with a new Illinois law.

"Many persons are unaware of the law making front seat installation of two seat belts mandatory in 1961 or later model cars," Morris said.

The law, enacted during the 74th General Assembly earlier this year made seat belt installation mandatory after March 1, 1966. The law requires two sets of approved belts in all such vehicles and prohibits operation of the vehicles without seat belts.

**Final Advent Season Vesper at Hope Church**  
Final advent vesper of the season will be conducted at Hope Lutheran Church, 3715 Wabash avenue Wednesday at 7 p.m.

Included in this service in place of the sermon will be a chancel drama given by young people of the church. The drama, entitled "Love Agape Way," will concentrate on the meaning of Christian love in the life of a Christian.

**Arrest in 3-Car Crash**  
Lacey Randolph, 45, of 2605 Adams street was charged with careless driving at 10:30 p.m. Saturday after the front of his southbound auto had hit the rear of the car of Robert Bowden, Kirkwood, Mo., on State street at 18th street. The Bowden vehicle was knocked against the rear of the auto of David Keeton, 1115 Veronica avenue.
